

We, **Everest Metal Industries** established in 1982 are a leading manufacturer and exporter of Brass Parts in India. Our Major Client Countries are the USA, Australia, Poland, Portugal, Croatia, Slovenia, Spain, Sweden, Austria, Brazil, United Kingdom, Germany, Spain, Italy, South Africa, Belarus, Saudi Arabia, Kuwait, Dubai, Doha, South Korea, UK etc

We specialize in developing Customized Parts as per Client requirements with drawing, design and finished plating. We are equipped with Sand and Mold Casting, a Forging Press, Automatic Milling & Turning Machines, CNC, Stamping Machines, Polishing shop and a Lacquer plant.

The Brass Fasteners product category has been added to our manufacturing portfolio since 2009 and is a leading product segment for us. Other Products that we manufacture are

- Brass Hardware.
- Brass Electrical Components.
- Brass Fasteners.
- Brass Sanitary Parts.
- Earthing & Grounding Accessories.
- Copper Parts for HVAC and Customized Purposes, etc.

Core Purpose:

“To provide innovative, customized and qualitative solutions with consistent services to our customers thus enabling constant growth to everyone connected to us.”

Core Values:

- **Unity & Respect for all**
- **Continuous learning for excellence**
- **Hard work + smart work**
- **Customer First**
- **Relationship for Life**

Brand Promise:

“0% Rejection and 100% Delivery as per Delivery Date Committed.”

SP 16 - 10	M 16	M 10	24
SP 16 - 12	M 16	M 12	24

MATERIAL

- CZ 121, CZ 122

Plating

- Bright Nickel, Natural, Electro-Tin, Chrome, Nickel plated, Copper Plated

BRASS & MS SCREWS, BRASS BOLTS

	Screws	Bolts
Standards	Din Standard parts in Metric, NPT, UNF threads	
Finishes	Natural, Zinc Plated, Tin Plated, Nickel Plated, Chrome Plated, Copper-Nickel Plated	
Lengths	3mm - 60mm	4mm - 60mm

BRASS NUTS

	Brass Nuts
Standards	Din Standard parts in Metric, NPT,
Finishes	Natural, Zinc Plated, Tin Plated, Nickel Plated, Chrome Plated, Copper-Nickel Plated
Lengths	4mm - 100mm
Also we can customize as per your requirements based on technical drawings and samples	

BRASS INSERTS

- Brass Free Cutting or Material as per requirement
- Sizes from 2mm to 120mm or as per requirements
- Uses: Used for Plastic / PVC / UPVC/ CPVC / PPR molding

BRASS SPECIAL COMPONENTS

- Size starts for M8.
- Development as an inserts for Plastics injection mold.
- Development for Electrical, Earthing and Grounding.
- Development as per Technical drawing and requirement.

COPPER COMPONENTS

- Development for HVAC
- Development for Electrical, Earthing and Grounding
- Development of coppers parts for portable water system.
- Development as per Technical drawing and requirement
